Department of Health Science

Beneficiary partners

National Forensic Laboratory and Criminal Police Directorate

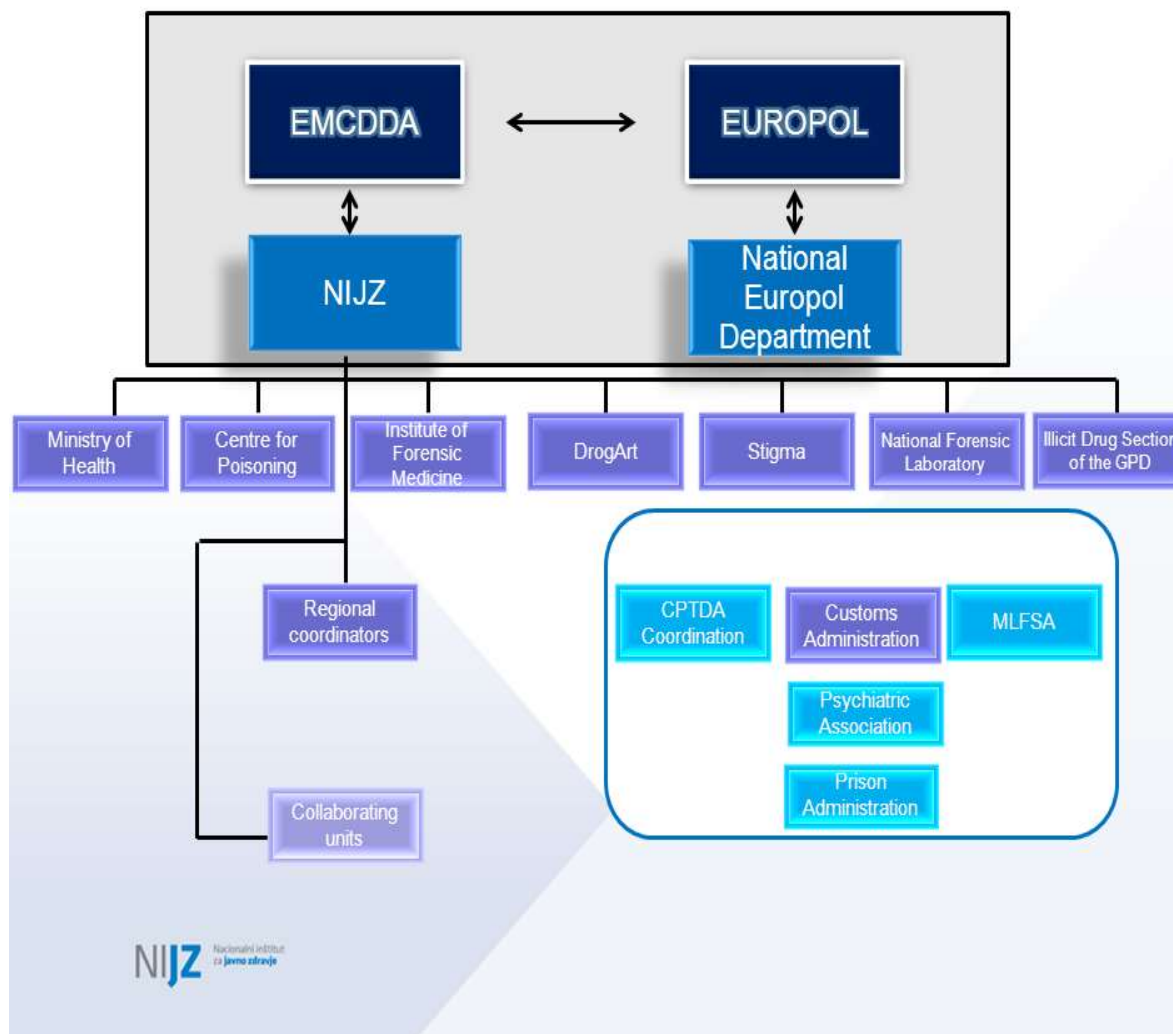

# Slovenian Early Warning System on NPS

- 2005 - first model of Slovenian EWS established, upgraded later.

- 2007 - the EWS is adopted at national level by Ministry of Health. Coordination of NEWS under NIJZ.

## I-SEE Slovenia: What we wanted to achieve?

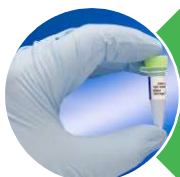

to build up regional networks involving law enforcement, NGO's and public health professionals

to detect NPS in an early phase of their appearance and in regions where they are entering the country

to enable anonymous collection of NPS samples in regions

to speed up the procedure of anonymous collection of NPS samples and their analysis

to speed up the response in terms of informing the users and take adequate measures to tackle the problem

# NIJZ: What was done in 2015?

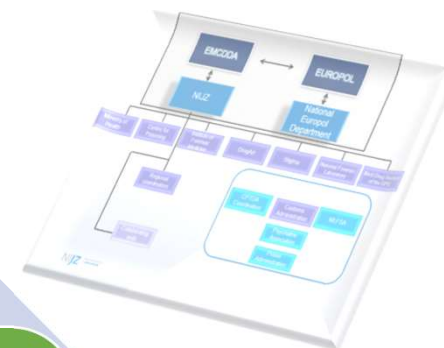

4 trainings

## 17. April 2015 1st national meeting
